The ESE European Lecture has been introduced in order to strengthen the collaboration between ESE and the Affiliated Societies, and to bring information about ESE to the Affiliated Society member.

It is hoped that the ESE European lecture will be held at one of the Affiliated Societies’ annual meetings.

A speaker and chairperson will attend the national meeting and present a lecture and provide information about ESE.

The speaker would be chosen in collaboration with the national societies and the ESE Executive Committee.

The speaker should be a member of the ESE and the chairperson will be a member of the ESE Executive Committee.

ESE will fund the European Lecture and we hope that this will strengthen the collaboration between the Societies. The ESE funding includes travel expenses etc incurred for the ESE European Lecture and not sponsorship for the meeting.

Requests for an ESE European Lecture should be forwarded to the ESE Secretariat (info@euro-endo.org) and include the following details:

1. Name of the Affiliated Society, contact person and email address.
2. Dates and location of the meeting.
3. Date and time for when the ESE European Lecture will be held.
4. A copy of the programme, if available.
5. Suggested names for the speaker and/or chairperson.

Upon receipt of the above information, the ESE Secretariat will liaise with the ESE Executive Committee regarding their attendance.

For further information please contact the ESE Secretariat by email at info@euro-endo.org.
