10 May 2024

26th European Congress of Endocrinology - 11-14 May, 2024, Stockholm, Sweden

BACKGROUND

About the European Society of Endocrinology

The European Society of Endocrinology (ESE) provides a platform to develop and share leading research and best knowledge in endocrine science and medicine. By uniting and representing every part of the endocrine community, we are best placed to improve the lives of patients. With over 4,500 individual members and through the 47 National Societies involved with the ESE Council of Affiliated Societies (ECAS) ESE represents a community of over 20,000 European endocrinologists. We inform policy makers on health decisions at the highest level through advocacy efforts across Europe.

About the European Congress of Endocrinology

The European Congress of Endocrinology (ECE) is ESE's flagship event, attracting on average 3,500 international delegates each year across the spectrum of endocrinology. The event is a showcase of the best of science and clinical practice across the fields of endocrinology and metabolism, and aims to deliver to all audiences interested in the field - experienced consultants, scientists or nurses, at any stage of their career. The 26th European Congress of Endocrinology (ECE) is held at the Stockholm International Fairs (Stockholmsmässan) in Stockholm, Sweden, on 11-14 May 2024. See the full scientific programme here: <https://ese-hormonesapps.m-anage.com/ece2024/en-GB/pag>

To find out more about ESE, please visit www.ese-hormones.org. Follow us on Twitter [@ESEndocrinology](https://twitter.com/ESEndocrinology), Facebook [@EuropeanSocietyofEndocrinology](https://www.facebook.com/EuropeanSocietyofEndocrinology) and [LinkedIn](https://www.linkedin.com/company/ese-hormones).

About the European Journal of Endocrinology

The European Journal of Endocrinology is ESE's flagship with a current Impact Factor of 5.8, five-year Impact Factor: 6.3. The journal (published by Oxford University Press) publishes high-quality original clinical and translational research papers and reviews in adult and paediatric endocrinology, as well as international clinical practice guidelines and position statements.
