

Csilla Krausz (Italy)

Csilla Krausz obtained her MD in 1990 and her specialization in Endocrinology and Metabolic Diseases in 1995 at the University of Florence, Italy, and her PhD in Human Genetics in 2001 at the Pasteur Institute/University Paris 7, France. Currently she is Professor in Endocrinology and research group leader at the University of Florence, Italy and co-director of the Florence European Academy of Andrology (EAA) Training Center in Andrology. Her first research field was spermatology with special interest in oxidative stress and functional sperm parameters. Starting from 1995 she is focusing on genetics and epigenetics of male infertility, hypogonadism, cryptorchidism, testis tumor and genomic instability of the male gamete. Her major scientific achievements concern the X and Y chromosome-linked CNVs (deletions) and their clinical significance. She is author of more than 140 scientific publications in international peer-reviewed journals and her H-index: 49 (Scopus). H-index:55 (Google scholar). According to a recent worldwide survey, she is among the top 20 most productive authors on male infertility research from 1995. She is an Academician of the European Academy of Andrology (EAA) and in 2014 has been elected as the President of the EAA for the period 2014-2018 and re-elected in 2018 for a second mandate. In 2017 has been appointed by the ESE as the Clinical Lead of the Reproductive Endocrinology focus area.

Leen Antonio (Belgium)

Leen Antonio is an endocrinologist/andrologist at University Hospitals Leuven, Belgium and an assistant professor at Department of Chronic Diseases and Metabolism (CHROMETA) of KULeuven, Belgium. She has a specific interest in male hypogonadism, male infertility and reproductive endocrinology. Her research focuses on clinical research in andrology, male reproductive endocrinology and steroid hormones.

Giovanni Corona (Italy)

Giovanni Corona works as endocrinologist and Andrologist at the Endocrinology Unit of Maggiore-Bologna Hospital, Bologna, Italy. He received the MD degree at the University of Bologna and the Board in Endocrinology and the Doctor of Philosophy degree at the University of Florence. He received two prestigious awards, one in 2009 from the European Society for Sexual Medicine, "Excellent Award" and the second in 2013 from the International Society of Andrology, the "Young Andrologist Award". In 2015 he was quoted in the top best European 30 researchers (category "Reproductive Biomedicine" n=11) by the Lab Times. In 2019 he was quoted in the top 20 worldwide best best authors (n=2) on Erectile Dysfunction by the International Journal of Impotence research (doi: 10.1038/s41443-019-0161-8). He is co-author of more than 250 peer-reviewed manuscripts, different book chapters and invited reviews in the field of endocrinology and sexual medicine. Since 2014 is a member of the board of the Journal of Endocrinological Investigation. Since 2016 he is a member of the Editorial board of "Andrology". Since 2018 member of the Editorial board of Hormones. Since July 2010 member of the Editorial board of Journal of Sexual Medicine. From July 2010 to December 2015 nominated Associate Editor of the Journal of Sexual Medicine. Since January 2017 re-appointed as the Associate Editor of the Journal of Sexual Medicine. Since 2010 member of the European Society of Endocrinology, and Academician of the European Academy of Andrology (EAA). Since 2015 he has been appointed as the co-chair of the "Guidelines Committee" of the EAA. In 2018 he has been nominated as the President of the Italian Society of Andrology and Sexual Medicine. Since 2018 nominated as the Chair of the scientific committee of the European Society for Sexual Medicine.

Marco Bonomi (Italy)

Professor Marco Bonomi is a translational researcher focused on the neuroendocrine control both of human reproduction and thyroid functionality. He obtained her MD in 1997 and his specialization in Endocrinology in 2003 at the University of Milan, Italy. He did a three year PostDoc at the Institut de Recherche Interdisciplinaire en Biologie Humaine et Moléculaire (IRIBHM) at the Université Libre de Bruxelles, Belgium. Currently he is Associate Professor of Endocrinology and research group leader at the University of Milan and head of the Center for Disorders of Reproduction and Pubertal Development at the IRCCS Istituto Auxologico Italiano in Milan. He is co-coordinating the Italian Network for the Central Hypogonadisms (NICE) belonging to the Italian Society of Endocrinology (SIE), the Italian Society of Andrology and Sexual Medicine (SIAMS) and the Italian Society of Pediatric Endocrinology and Diabetes (SIEDP). He is Academician of the European Academy of Andrology (EAA) and member of several national and international Endocrine Societies with participation and leading in some of their committees. He is author of more than 80 scientific publications in international peer-reviewed journals and more than 15 textbook chapter of endocrinology. His investigative approach is collaborative and multidisciplinary, spanning the fields of human genetics, molecular biology, in vitro and in vivo models. His research projects include: 1) elucidating the pathophysiology of Congenital Hypogonadotropic Hypogonadism, and 2) studying the molecular basis of the Isolated Central Hypothyroidism

Dimitrios Goulis (Greece)

Professor Dimitrios G. Goulis completed his basic medical training (MD) and received his PhD from the Aristotle University of Thessaloniki, Greece. Having a scholarship from the European Union, he worked for four years (1996 – 2000) as clinical research fellow at St. Mary's Hospital, Imperial College, London, UK, acquiring the specialty of Endocrinology, Diabetes and Metabolism. During his training in Great Britain, he was involved in the fields of Metabolism, Reproductive Endocrinology and pregnancy complications. Since 2004 is a lecturer, since 2009 assistant professor (non-tenure), since 2013 assistant professor (tenure), since 2015 associate professor and since 2019 full professor in Reproductive Endocrinology, serving at the 1st Department of Obstetrics and Gynecology, Medical School, Aristotle University of Thessaloniki. Professor Goulis has published more than 350 full papers in peer-review international journals. His main research interests include male reproductive endocrinology, female reproductive endocrinology, endocrine and metabolic complications of pregnancy, menopausal transition, Evidence-Based Medicine and research methodology.
