Hormones are key to live a healthy life. @ESEndocrinology #EuropeanHormoneDay tells us why we need to be more aware of them and what decision makers can do to help patients who suffer

23 maja to Europejski Dzień Hormonów #EuropeanHormoneDay, nowa Europejska kampania zdrowotna zapoczątkowana przez @ESEndocrinology. W pełni popieram tę ważną inicjatywę i rekomendacje #MilanoDeclaration. Powinniśmy zwiększyć świadomość tego, jak ważne jest #HormoneHealth!

I support #EuropeanHormoneDay and endorse the #MilanoDeclaration. On this occasion I call for the eradication of #endocrinedisruptors in our environment to prevent many chronic illnesses in humans as well as animals.

Today is @ESEndocrinology & ESE Foundation's #EuropeanHormoneDay! Spread the word and let @EU_Health know why they should pay closer attention to health policies tackling endocrine challenges
