

ENEA

2026

Connecting minds
to advance
Neuroendocrinology

ENEA
Neuroendocrine
Association

09/09 > 12/09

At Jussieu campus, PARIS

AOS

WEDNESDAY 9 TH SEPTEMBER

13:00

Welcome

13:15 - 14:00

Plenary Lecture 1 :

Rolf Gaillard Prize Lecture

14:00 - 15:00

Symposium 1 : GLP-1 Agonists: the Fall of Obesity?

Preclinical developments

Non-obesity effects of GLP-1 agonists (smoking and alcohol abuse, pregnancy)

Efficacy and side effects of GLP-1 agonists

15:00 - 15:30

COFFEE BREAK

15:30 - 16:30

Symposium 2 : Prolactinomas Across the Lifespan

Specificities in the management of prolactinoma in children and adolescents

Should we change treatment paradigm in young women?

The different facets of prolactinoma in older patients

16:30 - 17:30

ENEA Studies : Multicenter Study Reports

HEROS / MAPPY / Hyperprolactinemia

Parasellar Lesions

EPPG Updates

17:30 - 18:00

ENEA General Assembly

18:00 - 19:00

Welcome Cocktail

19:30 - 20:30

EYRC Meet & Drink - Venue TBD

ENEA

2026

Connecting minds
to advance
Neuroendocrinology

ENEA
Neuroendocrine
Association

09/09 > 12/09

At Jussieu campus, PARIS

AOS

THURSDAY 10 TH SEPTEMBER

08:00 - 08:45

Industry Symposium

Title

9:00 - 9:30

Meet-the-Expert 1 - Auditorium

What's new in pituitary apoplexy

Meet-the-Expert 2 - Room 106

Spatial transcriptomics and single cell analysis

Meet-the-Expert 3 - Room 108

Genetics of acromegaly and pituitary gigantism

9:35 - 10:35

THE YEAR IN NEUROENDOCRINOLOGY

Basic

Clinical

10:35 - 11:05

COFFEE BREAK

11:05 - 11:35

Plenary Lecture 2

Failures and achievements in Neuroendocrine Tumor research: From molecules to disease

11:35 - 12:35

Symposium 3 : Neuroendocrine Tumors

Integrating morpho-molecular landscapes to achieve a clinical classification of lung neuroendocrine tumours

Patient derived organoid models help to unveil translational discoveries in neuroendocrine neoplasms: the case of EGF

Current advances in the treatment of NETs: from targeted therapies to theranostic successes

12:35 - 13:35

Industry Symposium

Title

ENEA

2026

Connecting minds
to advance
Neuroendocrinology

ENEA
European
Neuroendocrine
Association

09/09 > 12/09

At Jussieu campus, PARIS

AOS

THURSDAY 10 TH SEPTEMBER

13:35 - 14:30

LUNCHBREAK

14:30 - 15:00

Meet-the-Expert 4

Browning and thermogenesis of adipose tissue

Meet-the-Expert 5 - Room 106

Differential diagnosis of Cushing / pseudo-Cushing

Meet-the-Expert 6 - Room 108

Molecular imaging for pituitary and adrenal tumors

15:05 - 16:05

Symposium 4 : Central Control of Obesity

Obesity and cachexia: the Ying and Yang in the central control of metabolism

Ghrelin and food reward

Sympathetic neuropeptide Y protects from obesity by sustaining thermogenic fat

16:05 - 17:00

COFFEE BREAK & EYRC POSTER TOUR ROOM 102

17:00 - 18:00

EYRC Oral Communications

Title

18:00 - 19:00

Symposium 9 (EYRC) : Young Endocrinologists Symposium

Transcriptomics of pituitary tumors: molecular classification and clinical implications

Advancing Pituitary Tumor Classifications Through Epigenomic Insights

Hyponatremia and the Brain

ENEA

2026

Connecting minds

Neuroendocrinology

ENEA
Neuroendocrine
Association

09/09 > 12/09

At Jussieu campus, PARIS

AOS

FRIDAY 11 TH SEPTEMBER

08:00 - 08:45

Industry Symposium

Title

09:00 - 09:30

Meet-the-Expert 7 - Auditorium

Pituitary incidentalomas

Meet-the-Expert 8 - Room 106

Astrocyte and Microglia functions in obesity

Meet-the-Expert 9 - Room 108

TSH-secreting adenomas

09:35 - 10:05

Plenary Lecture 3 : Central Regulation of Appetite

10:05 - 11:15

COFFEE BREAK & Poster session 1 Room 102

11:15 - 12:15

Symposium 5: Neuroendocrine Disruptors

From chronobiology to chronotherapy

Effects of exposure to endocrine disrupting chemicals on hypothalamus regulation of reproduction and appetite

Microbioma of the mother and development of hypothalamic circuits controlling appetite in the fetus

12:15 - 13:15

Industry Symposium

Title :

13:15 - 14:15

LUNCHBREAK

ENEA

2026

Connecting minds
to advance
Neuroendocrinology

ENEA
European
Neuroendocrine
Association

09/09 > 12/09

At Jussieu campus, PARIS

AOS

FRIDAY 11 TH SEPTEMBER

14:15 - 14:45

Meet-the-Expert 10 - Auditorium
Hypogonadotropic hypogonadism

Meet-the-Expert 11 - Room 106
Steroidomics and Artificial Intelligence

Meet-the-Expert 12 - Room 108
Thirst disorders

14:50 - 15:50

Symposium 6: Craniopharyngiomas

Novel Mechanistic Insights in Craniopharyngiomas

Surgical or Medical treatment?

Utility of artificial intelligence in brain tumour imaging and surgery

16:00 - 16:30

COFFEE BREAK & Poster Session 2 ROOM 102

16:35 - 17:35

Oral Communications

Title :

17:35 - 18:35

Symposium 7: Acromegaly and comorbidities

Acromegaly, metabolism and cardiovascular risk

Acromegaly and bone

GH, IGF-I and cancer

ENEA

2026

Connecting minds
to advance
Neuroendocrinology

ENEA
Neuroendocrine
Association

09/09 > 12/09

At Jussieu campus, PARIS

AOS

SATURDAY 12TH SEPTEMBER

09:30 - 10:00

Plenary Lecture 4

Pituitary Surgery 2.0: How to approach invasive tumors

10:00 - 10:30

Controversy

Title :

10:30 - 11:00

COFFEE BREAK

11:00 - 12:00

Symposium 8: Cushing's Syndrome: New Player on The Block

Corticotroph Tumor development

Molecular Imaging in corticotroph tumors

Medical treatment of Cushing's syndrome: New concepts, new drugs

12:00 - 12:30

Closing Ceremony
