

DATE:
30–31 October 2024

LOCATION: Amsterdam,
The Netherlands

OBESITY:
The Different Root Causes

We are delighted to invite you to the first **TRANSFORM: Training Experts for Tomorrow** event, focused on the different root causes of obesity including rare melanocortin-4 receptor pathway diseases and transition of care.

TRANSFORM is a new educational training programme designed for early career medical specialists with a focus on obesity, delivering cutting-edge knowledge and skills relevant to their field. This meeting will provide a unique platform to engage with scientific leaders and build an international network with peers.

The programme is developed by the Chairs **Professor Erica van den Akker**, Head of Paediatric Endocrinology and Obesity Center CGG and **Professor Volkan Yumuk**, President Elect at EASO, Internal Endocrinology, in collaboration with additional expert speakers.

Please mark your calendar for this important event.
Further details about the programme will be available soon.

If you are interested in participating in this programme or would like to learn more, please register your interest [here](#).

We look forward to welcoming you to what is sure to be a unique and interactive opportunity to advance your career and connect with like-minded professionals.

For any inquiries, please contact the following email address:
