

Recommendation from the ESE Executive Committee and the ESE Membership Committee on increasing the ESE Membership Fees

Dear Members

We ask that you read the below paper carefully so that you are fully informed when you place your vote at the 2025 ESE AGM in Copenhagen, Denmark on Tuesday 13 May 2025.

At the 2023 AGM we presented a paper on increasing the ESE Membership fees for the 2024 year as they had not been increased since 2012. This was agreed and ratified by the ESE members at the 2023 ESE AGM in Istanbul, Turkey on Tuesday 16 May 2023.

As part of that paper, it was proposed and agreed, that an annual inflationary increase will also be reviewed and considered by the Executive Committee if the accumulated inflation rise reaches 5% in that year.

After careful review of inflation in 2023 and 2024 and the forecast inflation rate in the Eurozone for 2025 and 2026 it is likely that cumulative inflation will reach 5% in 2026.

Therefore the membership fees for 2026 will be increased as detailed in the tables below.

We would also like to take this opportunity to inform members that **clause 3.3 of the [ESE Byelaws](#) has been updated to state that membership fees will need to be paid in full within 6 weeks of it falling due** (previously this was 3 months).
