The 2nd Middle East Thyroid Summit (METS 2026) is an international scientific meeting dedicated to the latest advances in thyroid and head & neck surgery, endocrine surgery, oncology, and multidisciplinary thyroid care. The summit will bring together internationally recognized experts, surgeons, endocrinologists, oncologists, researchers, and healthcare professionals from across the Middle East and worldwide to exchange knowledge, discuss innovations, and strengthen academic collaboration.

Main Scientific Topics

- Thyroid Cancer Management
- Advanced Thyroid Surgery
- Head & Neck Oncology
- Minimally Invasive & Robotic Surgery
- Parathyroid & Endocrine Disorders
- Multidisciplinary Thyroid Care
- Research & Innovation in Thyroidology

President of the Summit: Dr. Abdulwahid M. Salih

Organized By: Smart Thyroid Subspecialty & METS 2026 Organizing Committee
